

One Night with the King

SHOBC Women's Weekend Retreat

Do You Long to Hear Direction from the Lord?

God has a specific calling on your life and wants to use you; but in order to come into your full potential and get on the pathway to your Palace, you have to be more hidden in His presence than ever before.

Esther's life was transformed when she spent one night with the king. It was Esther's night with the king that allowed her to save her people.

God wants you to come into a greater intimacy with Him than ever before.

Answer the call and come to this life changing weekend!!
